PROFILE

Driven AI Enthusiast and Developer with practical experience in Java, Python, and Machine Learning, dedicated to building efficient and scalable applications. Blends strong coding skills with a focus on real-world problem-solving, striving to create intelligent systems that deliver meaningful results and user impact.

EDUCATION

The NorthCap University

Sep 2022 – June 2026

- B-TECH in Computer Science and Engineering **CGPA: 7/10**
- Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning

Euro International School

March 2021 - March 2022

- Class XII Percentage - 79.8%

Euro International School

March 2019 - March 2020

- Class X Percentage - 91.6%

INTERNSHIPS

DEW SOLUTIONS

June 2024 - July 2024

- Automation Engineer Intern.
- Worked with the tech team , automating few websites
- Automated Website using Selenium adding human behaviour while scrapping.

PROJECTS

DISCORD MODERATION BOT

Oct 2023 - Nov 2023

- Developed a Discord Bot for server moderation.
- Added multiple commands like Welcome, Mute , Kick , Remind etc
- Also had security features which protects server from raids and nukes.

AUTOMATED SWAYAM WEBSITE

Mar 2024 - Apr 2024

- Automated an educational website - SWAYAM using a technology called Selenium.

CAR PRICE PREDICTION

Oct 2024 - Nov 2024

- Built a machine learning model to predict car prices Using featureslike engine size, fuel type, and mileage
- Data was pre-processed, relevant features selected, and models (linear regression, decision trees, random forests
- UsedPython, Pandas, Scikit-learn, and Matplotlib.

CERTIFICATES

- SIH All India Hackathon 2024
- Python Fundamentals for Beginners

SKILLS

- Programming Languages: Python, Java
- Databases: MySQL, MongoDB
- Data Analysis: Pandas, NumPy, Matplotlib and Seaborn
- Soft Skills: Good Listener, Workoholic
